PERSONAL PROJECT

Portfolio Website

<https://leevvii.github.io/>

11/2023 - Present

Inputs:

- Designed and developed a visually appealing interface to showcase the project
- Implemented responsive design for optimal viewing on various devices.
- Integrated interactive elements and features to engage visitors and demonstrate technical skills.
- Utilized HTML, CSS, JavaScript, and other relevant technologies to build and customize portfolio components.
- Designed and developed a visually appealing interface: Leveraged design principles such as typography, whitespace, and color theory to create an aesthetically pleasing and user-friendly interface. Ensured consistency in design elements across pages for a cohesive user experience.
- Included contact information and call-to-action prompts to encourage visitor interaction and inquiries.
